MAIN SQUEEZE

As warmer days approach, harness the essence of summer optimism in your home with a buoyant medley of buttery yellow, rich orange and zesty lime. Bold, bright and fresh, these tones make a striking statement alone, or can be paired with a deeper shade to achieve a dynamic contrast. Try Resene Adrenalin or Resene Wellywood for a vivid pop that will liven up any room, or set your sights on Resene Guggenheim, Resene Supernova or Resene Witch Haze for a more subtle aesthetic.

New horizons

Wave goodbye to the winter blues by adopting a more-is-more approach to colour in your wardrobe - and in your abode - this season. Reminiscent of a slowly fading sunset, regal hues of plum and lilac set the mood, while a high-octane assortment of citrus tones turn up the heat.

ULTRA VIOLET

Potent purple shades have long been associated with royalty and opulence. Adding a wash of Resene Grapevine or Resene Perfume to your walls will not only uplift the mood, it will give your interiors an air of luxury.
