

MATTE

The once dominant glossy paint look has been pushed aside, with technology now allowing us to enjoy the toned-down beauty of matte finishes, such as Resene SpaceCote Flat.

COLOUR POP

Yellow is a great accent colour if you want to highlight the most important elements in your interior design, or to create focal points in a room.

THE TREND
Shades of green, from deep jungle to moss, bring a natural, calming feel to interiors. Layer them to create a verdant paradise.

GREEN SCENE

Fashion's love of greenery endures, so bring nature inside the home with lush and relaxing forest hues.

Dial down the drama of daily life with the most soothing tone in the palette. Green is the colour we most associate with nature and its calming, peace-inducing qualities. Home as sanctuary is the essential antidote to the demands of work and the pace of the outside world — a tranquil home is where you rebalance your energy, restore your mind and calm overstimulated senses. To dial it down, call up the spectrum of the forest and create a lush interior hush. Evoke the colours of New Zealand's native bush and our unique subtropical plants, or conjure a cool Caribbean scene. Apply accent tones to elevate the green Resene scheme and bring key pieces of furniture and objects to the fore. Open the door to bliss.
