

1 PEG BOARD

Liven up and organise your home in a fun and stylish way by introducing these quirky noticeboard ideas into your life. Clear up the clutter and add a punch of colour at the same time. Paint a large 18x24 inch canvas with two coats of Resene Cutty Sark. Collect up an assortment of wooden pegs in a number of sizes and paint one edge of each with two coats of either Resene Half Kumutoto, Resene Buttercup or Resene Cabaret. Tie three long pieces of string around the canvas at different heights and knot at the back of the board. Tighten and fasten the string into position with a drawing pin on either end of each string to the back frame of the board. Clip your favourite photos, cards, calendars and to-do lists onto the strings with the pegs and display in your kitchen, living room or home office for a fun alternative to art.
